

Vishwakosh

App's name and tagline.

Vishwakosh – Learn about India

Describe the app. Describe the app's functionality and what problem it solves.

India's history is vast. Spread over 5000 years, India is one of the oldest civilization of the world. Yet to this day, there isn't an encyclopaedia that organises it's data or documents properly. This app shall intend to solve that.

Describe specific functions that the app will do. List these ideas in order of importance, with the first idea being the most important.

- Organise India's history chronologically by region and time period.
- Make available documents of historical significance.
- Share with the visitor incredible facts about Indian history
- Test the visitor's knowledge of India's history through quizzes and games

List 4 potential roles that are a part of your initial user target group. Then, expand on one of the roles with a detailed profile description of one of these potential users.

- the Indian citizen,
- History buffs,
- School teachers, and
- students.

Students: School students looking for a source for assignments or preparing for exams.

16-yo high-school student, tasked with studying and submitting a paper on the administration of the Gupta dynasty. Has no particular interest in history.

Come up with 4 client/designer goals for your app design. You don't have to assign these to a category (political, social, etc). List your goals in order of importance, with the first goal being the most important.

providing knowledge, organizing history, telling India's story, collecting and cataloguing documents of the past

Name and briefly describe 3 existing apps that are similar to your app idea.

Encyclopedia Britannica: The world's oldest continuously printed encyclopaedia.

Encyclopedia Iranica: An Encyclopedia of Iran's Persian past.

Wikipedia: The world's largest knowledgebase. Built and maintained by user contributions
